Execution Plan

```

Step 2 → Research 5-8 genuinely useful tips (not obvious ones)
Step 3 → Design carousel with consistent template (title slide + tip slides + CTA
slide)
Step 4 → Write blog version for SEO benefit
Step 5 → Create Pinterest infographic from same content
Step 6 → Post carousel on Instagram, link blog in bio
```

Integrate products naturally (1-2 per carousel)	Turn educational posts into product pitches
Use simple, visual slide design	Overcrowd slides with text
Repurpose content across formats	Create separate content for each platform
