🤝 Pillar 4: Influencer Content Strategy

> **Funnel Stage:** Awareness → Trust **Primary Goal:** Credibility through Authentic Third-Party Endorsement

---

Overview

Influencer content bridges the gap between brand messaging and genuine consumer trust. For FreshNest, the focus is on **micro-influencers** (10K–100K followers) in the lifestyle, parenting, and home décor niches — people whose audiences already trust their recommendations on everyday home products.

Target Audience (via Influencers)

Segment	Influencer Niche to Target
Homemakers	Home organization, Indian lifestyle, saas-bahu relatable content
Young Parents	Parenting, mom life, child-safe living
Working Women	Productivity, home management, quick routines
Home Décor Enthusiasts	Interior styling, budget home makeovers

---

Influencer Tiers & Strategy

Tier	Followers	Role	Budget Approach
Nano Influencers	1K–10K	Brand ambassadors, UGC creators	Product gifting
Micro Influencers	10K–100K	Primary collaboration tier	Product + small fee
Macro Influencers	100K–1M	Campaign launches & awareness spikes	Paid partnerships

> 💡 **Strategy Note:** Focus 70% of influencer budget on micro-influencers. Their engagement rates (4–8%) far outperform macro influencers (1–2%) and their audiences are more niche and trusting.

Platforms & Formats

Platform	Format	Best For
Instagram	Stories (swipe-up / link sticker)	Product demos, quick mentions
Instagram	Reels (dedicated)	Full product integration, routines
YouTube	Vlog integration	Deep-trust, long-form product use
Instagram	Feed post (static/carousel)	Aesthetic product showcases

Repurpose great influencer content as ads	Let good content die on their profile
Build long-term relationships	Use influencers for one-off posts only
